UNIVERSIDAD NACIONAL
COSTA RICA

In a global context where safe water is a critical factor for health, sustainability, and business continuity, **WaterMicro, Costa Rica 27** positions itself as the leading scientific and strategic platform to connect innovation, knowledge, and real-world solutions.

WaterMicro, Costa Rica 27: Safe Water for Humans and Ecosystems in the Anthropocene will bring together in Costa Rica scientific leaders, authorities, international organizations, and companies developing technologies, services, and solutions for water protection, microbiological monitoring, and sustainable water resource management.

Becoming a sponsor of **WaterMicro, Costa Rica 27** means positioning your brand as an ally of science, sustainability, and global health; gaining access to a highly specialized audience; and building strategic relationships within a high-level technical and decision-making environment.

We invite you to be part of **WaterMicro, Costa Rica 27, from May 30 to June 3, 2027, at the Costa Rica Convention Center**, and to align your brand with the solutions shaping the future of water.

We look forward to seeing you in Costa Rica
